CAREER SUMMARY:

Proficient software engineer with expertise in HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB. Skilled in building responsive web applications, integrating APIs, and developing full-stack solutions using the MERN stack. Demonstrated ability in problem-solving, optimizing code, and managing projects. Committed to continuous learning and driving innovation in the field of software development.

RELEVANT PROJECTS:

Personal Portfolio

September, 2023 - October, 2023

- Developed a personalized portfolio website using React.js and CSS to exhibit projects, skills
- Ensured optimal viewing across devices through responsive design principles
- Integrated interactive elements and visual enhancements to effectively highlight achievements and skills

Sorting Visualizer

November, 2023 - December, 2023

- Created a sorting visualizer application using React.js, CSS, and Firebase
- Utilized various sorting algorithms to visually demonstrate sorting processes
- Ensured a seamless user experience with intuitive design and real-time updates

EDUCATION:

2020 - 2023 | C.C.S University

Bachelor of Computer Applications (BCA)

SKILLS:

Programming Languages:

- HTML, CSS, JavaScript, SQL, C

Frameworks & Libraries:

- React.js, React, Node.js, Express.js, MongoDB

Tools:

- Git, Visual Studio Code, Docker, Postman

Additional Skills:

- Strong understanding of computer science principles, data structures, and algorithms
